Foreword

In a peaceful port, just from the surging sea, the "Sovereign of the Seas" has come to the end of her annual voyage. It was our voyage on the sea of life, and our ship—Canoga.

The voyage was a challenge—an adventure—a promise of things to come. In this era of changing times, we are often caught up and thrown against the waves of progress, but those aboard our "Sovereign of the Seas" were not afraid. They knew that they were gathering knowledge and wisdom to prepare for the future tides of life.

The journey has been a long one, the changes have been big ones, the growth within us has been a great one, and we have formed many lasting friendships. Let us remember the good, and develop those qualities within us. Mistakes were made, but those who made them should be wiser because of them.

We owe this much to ourselves. Only through the application of what we have learned will we earn the right to go on and to continue our voyage of life-long learning. Just as the navigator keeps watch and steers the ship accordingly, we must keep our eyes on our goal and direct our lives toward it.

Each year our ship comes to dock. New crew members come aboard to learn knowledge of man and kindness of heart and to make an addition to their education that will keep them afloat in this world as adults. Some will scatter to the ends of the earth, but wherever they go there will always be a "tug" at their hearts when they remember their apprenticeship on the "Sovereign of the Seas."

Brooke,
You're a real sweet gal &
I can only wish you the
best of everything. Stay sweet
& you'll go far. See you,

IRENE PILAT

Irene Pilat will raise windows for the last time in the library this June—windows she has raised since she first came to Canoga in 1938 as a teacher in English and Social Studies. In 1943 she crowded the first bouquet of flowers into a vase and stamped her first book as a librarian. Now with a startled flash, it's all over. Miss Pilat will desert her quiet surroundings, catch a boat unaware and travel to Europe.

Distant places, however, cannot destroy the seeding that Miss Pilat has done at Canoga. Even at this time, just before her retirement, there is this catch-breath of advice: a book is often more important than a man, for a book often outlives a man.

A perfect book—that is the ideal. Was that ideal caught in New York in Irene Pilat's girlhood? At Berkeley where she majored in English? At the National City Bank where she gained her first professional library experience?

Miss Pilat herself could write a book, if she were so minded, of all the vicissitudes at Cangoa Park. Student government is well set now, but Miss Pilat was here at its inception with Mr. Walter Monroe, as principal.

Those were the days of the spring gymkhanas and noon class meetings where students barbecued their luncheons, while meeting with Miss Pilat, the co-sponsor of the B-9 class. Those were the days of the Greek Theatre, of model airplane meets and the million dollar bond drives. If you want to start up these memories, just check into *The History of Canoga Park High School,* 1914-1957, where all is thrillingly preserved.

Miss Pilat knows from experience what a book will do for a student, and on the afternoons when her whistling teakettle is on, undoubtedly it will sing, "Try it." After all, when one has power over *one* thing, one has power over everything.

Somehow we can always remember Miss Pilat with affectionate admiration, trying delicately to hypnotize the students into reading. Fine idea, Miss Pilat, and bon voyage!

DEDICATION

To Miss Irene Pilat and Mr. Charles Clifford, we of the Annual Staff wish to respectfully dedicate the 1959 *Utopian.*

CHARLES CLIFFORD

After serving as a teacher and Science Department chairman at Canoga for 33 years, Mr. Clifford is retiring this June. Before entering the field of education he was a research and control chemist for ten years in the sugar, rubber and citrus industries, and at the National Bureau of Standards. Upon coming to California in 1924 he found there were few research opportunities and so in 1926 went into teaching as his father and grandfather had done.

Mr. Clifford has seen marked changes as this Valley has developed from open fields and few paved streets to its present condition, and the four-year high school with about 275 students has become a three-year senior high of more than 2200. He has taught a number of subjects, principally chemistry and physics, and has made it a practice to keep some kind of research work going.

Mr. Clifford has published a number of research papers in the best technical journals: four in chemistry, two in education and two in amateur radio. He has held amateur radio station license W6KFE for 25 years, and hopes to put in more time "on the air" after retirement. His "How to Study" article has printed well over half a million copies but brings no royalties as it was done in the interests of education. He served in World War II as a major in Chemical Warfare and Signal Corps.

He hopes to catch up on some activities that have had to be neglected the last few years, such as photography, fishing, hunting, badminton and piano. He and Mrs. Clifford plan to have more free time now with their daughter Betty (graduated C.P.H.S. 1937), her Navy officer husband and their two daughters, and their son Charles (C.P.H.S. '41), who is a communications engineer.

Mr. Clifford says that our present students have met the pressure of our era and have learned to work rapidly and efficiently in many activities.

We wish him much success and happiness in his pursuits after retirement from teaching.

A PRAYER FOR GOLD STAR HUNTERS

Dear God, we sent them to the grave;
They died for us, they were so brave.
We can raise banners, we can shoot guns,
But we can't make amends for lost loved ones.
All we can do is say this prayer
For the gallant men who died somewhere
On land, in air, and on the sea,
To keep precious freedom for you and me.

by *Leslie Gingery*

ETERNITY'S THIRTY-FOUR

This is the plight of the thirty-four
Who died for their country in time of war.

A strange tale the thirty-four could tell:
How they died at foreign gates of hell.

Overseas they fought, stumbled and died;
Behind, their loved ones bitterly cried.

A fighter plane in the flak-filled sky
Carried Hunters with appointments to die.

To the "Valley of Death" through an open door,
Serving their country, rode the thirty-four.

The men on the beach-head, face down in the sand,
Protected only by God's invisible hand.

"Be Strong" was the motto of Canoga High,
Remembered by mortal men before they die.

They lived and they died, and they fought like men,
So proud of their country, they'd do it again.

Their bones turned to dust, these Hunters are gone,
And a lonely bronze plaque carries memories on.

Let not their names slip from our memory.
Remember them, Hunters—for eternity.

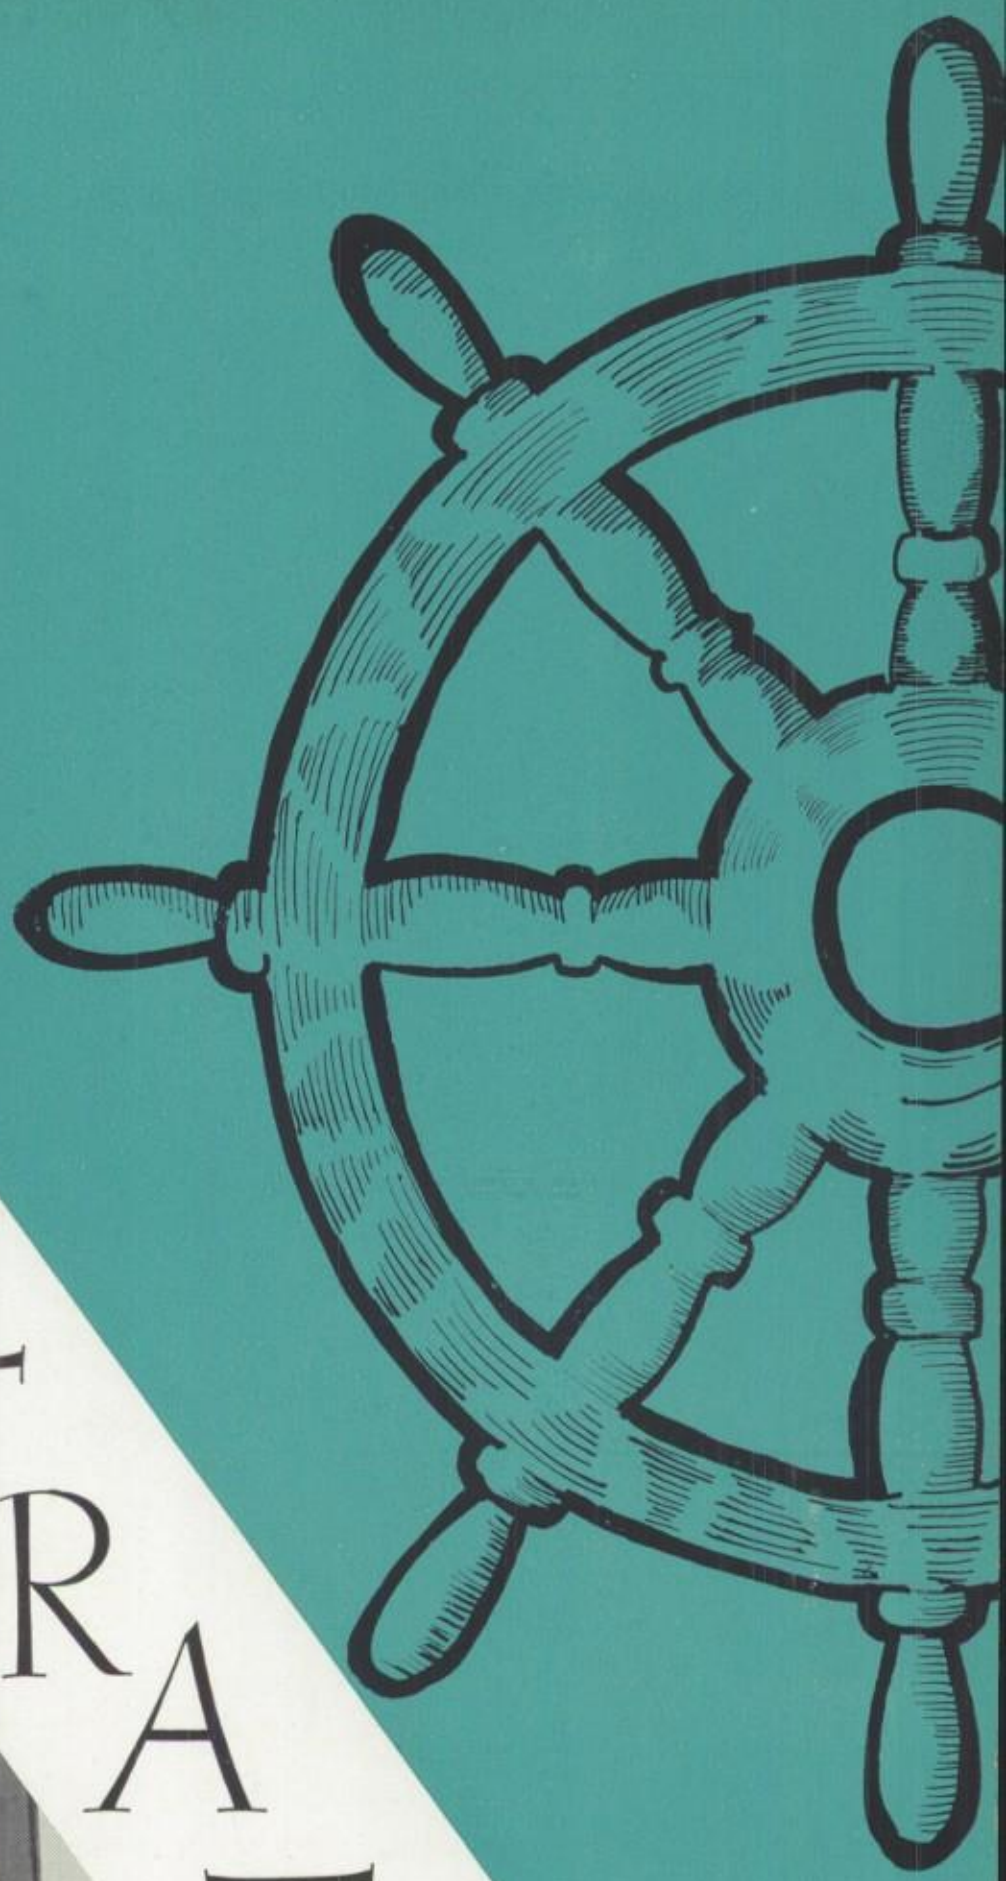
ADMINISTRATION



MR. HENRY O. DYCK, Principal

The position of any point on the earth's surface can be expressed in terms of latitude and longitude. At sea a navigator must know how to determine his position at any time in order to plot a course to his destination. When he is out of sight of land he must make use of the celestial bodies to locate himself. If he possesses the necessary knowledge, skill, and equipment, he can do this with great accuracy. If he also has a seaworthy ship and a capable crew, he can be quite certain to make his landfall. The seas belong to everyone. Today as in the past they offer an exciting opportunity for the properly prepared to get from one place in the world to another. However, the ill prepared may flounder and fail when faced by the ever present challenges of the sea.

"Sovereign of the Seas," selected as the theme for this year's *Utopian,* provides an excellent parallel to the opportunities and challenges of a high school education. The public schools, as the seas, belong to everyone. A serious student must determine his position and his destination and plot his course as carefully as the captain of a ship. He must be able to adjust his course and his speed day by day and semester by semester taking into full account his abilities, his interests, and his opportunities for counseling and instruction.

Pursuing an education, as sailing the seas, offers ever new horizons to those who are determined, courageous and strong.

"I must go down to the seas again,
to the lonely sea and sky,
And all I ask is a tall ship
and a star to steer her by . . . "
John Masefield

Sincerely,

H. O. Dyck

From: The Canoga Park Student Body and Faculty

Dear Mr. Dyck:

We would like to express our deepest thanks to you for serving the individuals of Canoga Park High School and looking after the general welfare of the student body.

You have done much for Canoga Park High School. Under your generalship Canoga has acquired many new fine facilities such as the boys' gym, parking lot, new classroom and shop buildings, the collegiate type quad, and the remodeling of the science and old shop buildings, the girls' gym, and the lower floor of the Administration building. For these material advances Canoga thanks you.

Even more important, you have made a steady effort to upgrade the instructional program and encourage the students to accept more and more responsibility for their own actions in accordance with the general welfare of the student body.

You represent sound judgment, high standards and the best of personal qualities. You stand for what is right; you have the courage of your convictions and an unusual ability to communicate your ideas to young people. Anyone who works any length of time with you becomes aware that it is indeed a privilege to know you. We wish you the best of luck at your new school.

Thank you again,
Canoga Park High School

MRS. ALWILDA DARTT, Girls' Vice-Principal

To Our Graduating Hunters:

The clipper ship is the symbol of an era when American sailing vessels acquired supremacy of the seas. Later, the flying clippers extended this supremacy to the air above those seas. Today, jet clippers are capable of encircling the globe in half a week; and tomorrow, no doubt, space clippers will tour this universe.

Marvel not at the development of the various clippers, but at the development of the various minds which created them. The widened horizons are mental horizons. The telescoping of time and space is relative, and is limited to man. However, time can still be measured by a clock, and distance by a rule. Our Earth is not essentially different in its material or energy content. The same natural and physical laws govern its being. Only man's concept of his world has changed. Expanded now are his understanding of basic facts about it, his ability to apply its laws, his knowledge and use of its resources, his skill in the fusion of molecules and the fission of atoms which enables him to produce and control apparently-new sources of power. In short, only man's accumulated and accumulating education has changed.

You are now graduating into an era which will produce yet another generation of clippers. The level of education which you have now reached, or may soon reach, will determine your part in the process. Whatever you do, do it well, for you will be entrusting your lives and lives of your unborn descendants to the clipper fleet you will help produce. God speed!

Alwilda Dartt

He was assisted by the navigators.

MR. JOHN SANDERS, Boys' Vice-Principal

Just as the clipper ship exemplifies the sovereignty of the seas, each of us should have dominion over our lives here at Canoga Park High School. There are many facts that produce the beauty and splendor of the sailing ship. Each sailor plays an integral and important part in this poetic motion.

Each of us here should contribute in whatever way possible to the pulse of Canoga, so that she may maintain the sovereign state that she rightly deserves. A good Hunter is proud of the beauty and the working of our ship. Have you contributed to this majestic voyage during the last year, and will you weather your future calms as well as storms because of your contributions to the sailing ship known as Canoga Park High School? Bon Voyage!

Sincerely yours,

John Sanders

BILL BRUNER, Student Body Prexy, W'59

Attending a Canoga dance as an alumnus impressed upon me more than ever before, the vitality of Canoga's spirit and the impact of her purpose. The effect of that visit made even more clear to me the place of the high school in our lives.

In that carefree and friendly atmosphere, I recalled my own pleasant preparatory years, full of simple but wonderful pleasures, entered into with zest and anticipation. Canoga does more than just prepare us for a vocation; it presents an opportunity to enjoy the basic pleasures of friendship and recreation—pleasures that we cannot lose sight of and still remain well adjusted and content.

Some say we are entering a period of transition from inhabiting one planet to perhaps that of controlling many; if this is so, we must, more than ever before, keep our basic pleasures alive and active. I realize now that it is the purpose of our school to develop complete—not shallow—personalities.

Canoga has given of herself to promote my happiness. Whatever I have done in student government does not begin to repay the debt I owe Canoga. Because of her greatness, I know she will last, not only materially, but also in the hearts of her graduates.

Sincerely,

Bill Bruner

better understanding among the entire crew.

For the Imperial class of S'59 our wonderful years of high school have come to an end. But from the end shall spring a bright and new beginning. It is now, when we take our last bows that we wish to thank those who have so patiently guided us to the threshold of success, our teachers.

With the end of the semester so near, I would like to express my thanks for the fine support and cooperation I received from you, the student body and the faculty. I shall forever be indebted, for without your constant backing I could not have achieved my sole purpose, which was to serve you. I truly hope that I have accomplished this goal.

As I must go, you who remain must go on. For when you leave, you will feel as I do now. Canoga has changed and will continue to change, but only in structure. The one thing that will always remain is that intangible something which we are so proud of, the "Hunter Spirit."

Canoga is the finest and shall always remain so. Let her live in our deeds, in our thoughts, and in our feelings. Let her be strong.

In this, my final good-by, may I again say, thank you. For I shall forever be grateful to you for making this semester so wonderful. Be good, be strong, and fight on.

Prom King and Queen

At the Prom, "An Affair to Remember," Phil Farmer and Karen Lawson reign as King and Queen, with Sandy Pelton looking on approvingly.

Graduation Day

The spotlight shines on Karen Grimm as she proudly receives her diploma.

In Memoriam

GONE BUT NOT FORGOTTEN

To Terri,

Canoga's halls are quiet,
The students' talk is low;
For tragedy has struck again
A sad and stunning blow.

Yes, coming out of nowhere,
Striking fast and hard,
A shock to everyone of us,
Catching all off guard;
Gone but not forgotten,
Loved by one and all,
Never more to see her
Smiling in the hall.

Yes, gone but not forgotten
With memories of the past,
The memories of Terri Sauter
Are at Canoga ever fast.

With all of our loving thoughts,
Class of S'60

This was a particularly large

Lettergirls

Lettergirls is a service organization of upperclassmen girls. Lettergirls performed such worthwhile duties throughout the school year as selling programs at the football games, patrolling the new classroom building to keep the students from eating in the hallways, and sponsoring noon clean-ups.

To become a Lettergirl a girl must attend G. A. A. for three semesters, receive no lower than a "C" in physical education and perform some service for the Physical Education Department. After becoming a Lettergirl a girl must remain in G. A. A. for two semesters and give a service to the school and attend every meeting of the organization.

The organization was sponsored by Miss Cynthia Brown and met in room 308 or in the Girls' Gym at lunch each Friday.

Among the activities of the year were the Lettergirls' new girls' party, the Lettergirls' sports' event, the Lettermen and Lettergirls' play day and square dance.

In the fall semester the Speech Club officers were Guy Miller, pres., and Nancy Dresher, vice-pres.

The show begins, but there would be no show if it were not for the Stage Crew, the unseen heroes of the stage. In the background the Stage Crew runs the lights and sound, and sets up the props and scenery as it is needed for the assembly.

If the sound and light equipment does not work well, the entire value of the assembly for the people attending is lost and the work of many people wasted. The crew has an important job.

Off go the lights, the movie begins, the projection crew is on one of its many assignments. The Los Angeles Board of Education owns many movies, slides, tape recordings and other instructional data through which Canoga's teachers may make their classes more interesting and instructive, but without the projection crew all would be wasted.

This year the Projection Crew showed movies during the Senior Picnic and the Youth Services movies on Friday nights as well as during their regular periods.

Utopian Staff

Canoga's Annual staff "log keepers" are extremely proud of the 1959 yearbook. For the first time in Canoga's history, natural color has been added on the title page. A second color also appears on the divider pages. Twelve pages have been added to last year's total. These expensive additions were financed by an increased number of advertisements, and with no increase in price for the 1500 Hunters who bought a *Utopian*. Yearbooks were sold for $3.50, or $4.00 with name engraved on the cover.

For Mr. Earl Browne's sponsorship and work, the staff wishes to express gratitude and thanks.

The Matchmaker
by
Thornton Wilder

The Matchmaker succeeds in making couples of B. DeSimone and E. Toynton, B. Haworth and B. Bush, H. Tracy and L. Killian, while J. Hackett, who is too young, and K. Martin, who is too old, and B. Welch remain happily (or unhappily) single.

"The Matchmaker," by Thornton Wilder, was presented by the play production class of W'59 under the direction of Miss Charlotte Motter. The play was originally produced under the title of "Merchant of Yonkers."

The play deals with the efforts of a young couple to marry, regardless of the protests of the girl's uncle and guardian, and the effort of the uncle's two clerks to bring adventure into their dull lives and the attempts of the uncle to find himself a suitable wife. Through an elaborate scheme of plots and arrangements the entire company becomes hopelessly entangled until a middle-aged, love-stricken woman straightens out everyone and makes several couples out of them.

The crew provided entertainment for each other.

SPORTS

During battles, cheerleaders kept the colors flying.

W'59 Cheerleaders

B. McAlister, T. Simmers, R. Zimmerman, G. Weamer, J. Russell and D. Moss take a break from generating all that Hunter spirit during the fall sports season.

S'59 Cheerleaders

W. Lortie, M. Anderson, T. Simmers and B. Ashbaugh continue in the fine tradition of Canoga cheerleaders.

This year the cheering was led by Richard Zimmerman and Lenora Haworth during W'59 and by Tom Simmers during S'59. Due to a new constitutional amendment, there were no elected songleaders during the summer session.

Many new cheers and songs were heard coming from the Canoga stands at football games, basketball games and track meets. This year Gary Weamer was chosen as the Hunter Mascot to promote Canoga spirit. Spectators were treated to new Canoga cheers "Vivel Canoga," "Rickety Rackety" and "Fight Boys," plus many of the old ones.

W'59 Songleaders

R. Padilla, B. McDermott, L. Haworth, J. Vandenberg and C. Schultz go through their actions as animated songleaders.

S'59 Songleaders

R. Padilla, P. Sanders, C. Schultz, C. Wish and M. DeCorte were not elected as songleaders, but that did not dampen their vim and vigor during those spring track meets.

Acknowledgments

With our work finished we thank . . .

Our sponsor, Mr. Earl W. Browne, for his unfailing help; Mr. Gerald Gates, winter Student Body Financial Manager and Mr. Robert Garren, summer Financial Manager, for their advice regarding money matters; Mr. Russ Eden of White Studios of North Hollywood and Bruce Haines, student photographer, for their fine pictures; Mr. John Bugle of S. K. Smith Cover Company, Mr. Warren Lewis of Wilshire Engraving Company, Mr. Abraham Falick of Murray & Gee, printers and publishers, for their patience and advice.

To the teachers whose attendance records we made more complex because of the absence and tardiness of annual staff members we wish to give a special thanks for being so undertsanding. To the school administrators, without whose cooperation this annual could not be produced and the many other people who supported the annual by buying advertisements and copies of the year book, we cannot adequately express our thanks.

Sincerely,
The summer and winter 1959 *Utopian* Staff
